

SECURITY

Security

At Clarriets your security online is our top priority:

- We use the best technology available to ensure that any sensitive information, such as passwords are secure and process any payment through PayPal. Clarriets does not receive any personal debit/credit card or banking information.

Whenever you are sharing any of your sensitive information online, at Clarriets or elsewhere, you should check the page is secure: on secure pages, you will see a **small locked padlock** and '**https**' replacing the 'http' in your browser address bar (at the very top of the window).

We do not store your credit or debit card details, except as follows, and with your consent.

For more information about the security of your personal information, please see our **Privacy Policy**.
